occupants.

A leasing citizen ran around to the quarters of Engine 53, in One Hundred and Fourth Street, and when Foreman Vetter and his men arrived they found that another attempt was been made to destroy the outsiding.

The incendiaries had started two area in the

cellar, which were ourning flercely.

A quantity of excelence had been stuffed tobe
the space between the cesting of the cellur and
the flooring of the hall in about the misches of
the butters. d fire was between the beams near the front of the house. At this place excelanor was also used to start the fire. The excelsion had been taken out of a bin in the cellar. The damage was small. There seems to be no clue to the incendance.

## FOREIGN NEWS OF THE DAY.

Ravages of the Grip Among English War Office Officials.

IDUNEAP CABLE NEWS SPECIAL ! LONDON, May 9.—The grip is still apreading rapidly among tan chiefe at the War Office. In addition to the Under Secretary of State for War, Sir Ralph W. Thomson, who is recovering from a very severe attack, the Accountant General, Mr. Raipn Knox, and the Deputy Accountant General, Mr. II. Delabere, are both down with the disease.

To these are to be added the names of Sir Arthur Heliburton, Mr. Fleetwood Wilson and others belonging to the Department.

Meeting of French Socialists. PARIS, May 2. A large and at times turbulent meeting of Socialists was held last night at the Salle Favre, and many violent speeches were delivered, in which the excited orators senounces the action of what was termed the 'armed Government" on May Day, Resolutions were passed protesting against the mas-

sacre at Fourmies, and repressive measures

Characte may win with Lester account may be the ceilar by Mrs. McCauley who had a mile. Characte may win with Lester account, which we first flat. moved by the daugers which threaten the publie health.

A presente and resolutions on the subject introduced by Dr. William H. Draper, has been adopted by the Academy.

The preamble recites that the cleanliness of public thorougulares in large cities constitutes the greatest protection and best security the greatest protection and beat security against the apreading of epidemic and epidemic infections; that it is impossible to protect the people against the perils of accumulated bits without intelligent and systematic effort on the part of the authorities supplemented by the hearty co-operation of the people, and that and organized effort in the latter regard has recently been made by bublic spirited citizens. The principal resolution follows:

follows:

"Resolved, That this Academy of Medicine, as an organized exponent of the actence of public hygiene and practical satistation, hereby offers to the Astraory Committee of Chinens appointed by the Mayor to resort upon the aduject of attest cleaning in this city its hearty approval of the able manner in waith they approval of the able manner in waith they make exposed the defective and inadectate messade now pursued by the Street Cleaning Department, and its contail indocrement of the street of

disposing of street dift and house refuse and garbage."

These are but a few of the protests against Mayor Grant's strange indorsement of Commissioner Beatife's administration. They come from all sources, and are so newerous that wonder is expressed regarding the source of the testimony which Mayor Grant resers to as upnoising him in his remarkable judgment.

The members of the Advisory Committee, whose report is impugate by the Mayor's ict. Iter, feet as though they had been bunded, but they have said little forther than that they will hold a meeting to consider the jetter and will probably repare an an-wer thereto.

The housesmiths declare that a general tion will follow any such action.

The framers have made very little progress toward gaining their strike since yesterday. The central airise committee, with Secretary George Hith at its bead, bed a meeting in upper Clarendon Hall this morning. Reports aboved very little change in the situation.

The Strike Committee of the Bosses' Association has headquarters at 160 Third avenue. The Strike Committee of the Bosses' Association has headquarters at 160 Third avenue. The Strike Committee of the Bosses' Association has headquarters at 160 Third avenue. The Strike Committee of the Bosses' Association has headquarters at 160 Third avenue. The Strike Committee of the Bosses' Association has headquarters at 160 Third avenue. The Strike Committee of the Bosses' Association has headquarters at 160 Third avenue. The Strike Committee of the Bosses' Association has headquarters of the striking framers half way, but that they do not intend to agree to all their demands.

The Board of Walking Delegates sent a committee of nine to the headquarters of the striking framers this morning, and a tour of inspection was becaus.

Most of the larger jobs will be visited, and men will be called off who are found working with non-union men or using non-union mineral terral.

The strike money at Clarendon Hall this at the wolle duck cap, though this is as almost and the strike grown. They are only a very trifle lighter than the wolle duck cap, though this is as almost off the Clarendon Hall this afternoor, Each man who has been on strike for six days will receive \$8.

Boss Framer Weishedmer has signed the eight-hour contract of the Framers' Usion.

The committees assisting the Walking Delegation of inspection yeterday, they only found the contract of the pramers' Usion.

The strike of the pr

The new fire-proof \$1,250,000 Music Ball building at the corner of Seventa avenue and Fifty-seventa street, which was built by Andrew Carnegie and opened this week, received its baptism of fire early this morn up.

The are, which brove out in the cellar of the uncompleted annex building on Fifty-seventh and Antonio was a Frenchman and not an Italian.

### TRANSIT OF MERCURY.

Astronomers throughout the world are on the tiploe of expectation to-day for the transit of Mercury, which, according to Central Time,

The time given is that of an observer if stationed at the centre of the earth. Except as to the thyress of the planet the transit will not affect this part of the country, as the sun sets ao soon a fer it beans.

The Pacific States, bowever, will see July half, while Canna. Japan and the "soine is ands will see fine entire transit and Europe will see the fines. In this country the greatest interest in the rankit is naturally felt in Calling the where it can be observed for several more, and elaborate preservations for the observa-
